

FlexTalent Pro: Delivery Package Comparison

Explore Delivery Packages

LaunchPod

Best for:

MVPs, pilots, and quick-start initiatives

Includes:

- ✓ 1-3 engineers deployed in <=30 days
- ✓ Backend, AI/ML, and product support roles
- ✓ 30-day performance and satisfaction guarantee
- ✓ Ideal for early-stage fintech and healthtech builds

Outcome

Accelerate your roadmap without committing to long hiring cycles.

ScaleForce

Best for:

Mid-stage companies scaling infrastructure, data teams, or cloud platforms

Includes:

- ✓ 3-6 engineers with pod lead and weekly reporting
- ✓ Velocity dashboards (time-to-deploy, interview ratios, deliverables)
- ✓ Designed for backend scale, DevOps, and data pipelines

Outcome

Build smart. Grow fast. Stay lean.

StrategicOps

Best for:

Ongoing technical hiring and team expansion over time

Includes:

- ✓ Monthly pod allocation with rollover
- ✓ Quarterly behavioral + workforce planning insights
- ✓ Full delivery visibility through Ceipal + Looker dashboards
- ✓ Embedded partnership without long-term contracts

Outcome

A flexible, ROI-driven alternative to bloated vendor models.
